Dual bevel

**630mm wide base** | **54mm wider**  
than the previous model C12RSH

Positive stops for quick and easy miter angle setting

**Saw blade diameter**  
290 - 305mm

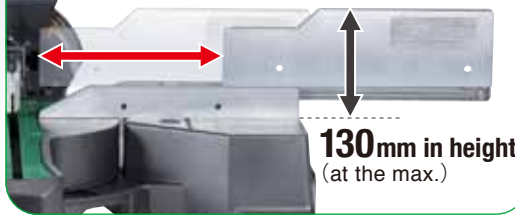

**27kg\*** | **2kg lighter**  
in weight | than the previous model C12RSH

\*Without the cord.

## Sliding sub-fence

high enough to support large work pieces for stable cutting

**130mm in height**  
(at the max.)

## Compact slide system with large cutting capacity

features a fixed rail slide design that eliminates the need for rear clearance to accommodate the extension of the sliding rails. This system allows the saw to sit up against a wall or to be placed in tight work areas without compromising cutting capacity.

Saw head in the front position

**890mm in depth**

Saw head in the full back position
